

Necrology

Lay Dominicans
England, Scotland and Wales
November 2018

This Necrology exists to allow the dead to be remembered on the date of their death. It has been compiled by the Necrologist based on records held by the Provincial Archivist.

Where only the month of death is known, the names of the souls in question are listed at the end of the relevant month. There is a significant number of Lay Dominicans where we know very little about their date of death: these souls are listed before the entry for November.

Supplement

Lay Dominicans
England, Scotland and Wales
November 2017

This Supplement to the Provincial Necrology exists to allow the dead to be remembered by their own communities during the November rites and other Commemorations of the Dead. It is an extract from the fuller Necrology, and lists souls by community only where this information is known to the Necrologist. Only existing Dominican Fraternities are included: fraternities are invited to request the inclusion of the dead of other groups so that they may be remembered by successor communities.
